Response to Arguments

1. Applicant's arguments, filed February 12, 2007, with respect to the §112 rejection of claims 1-6 have been fully considered and are persuasive. Applicant's claims are enabled for the subject matter recited in the claims. The setting the phase deficiency device when the bimetal is cold is not claimed subject matter, and therefore, the claims need not be enabling for this function. The rejection has been withdrawn, and the claims are in condition for allowance.

Further, the Examiner mistakenly objected to applicant's claim of foreign priority. The requirements are met by inclusion of the foreign patent information on the application data sheet. The objection of the claim of priority is withdrawn.

Allowable Subject Matter

2. Claims 1-6 are allowed for the reasons provided in the non-final rejection (August 10, 2006).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Adi Amrany whose telephone number is (571) 272-0415. The examiner can normally be reached on weekdays, from 9am-5pm.
